The National Association of Royalty Owners, Pennsylvania chapter is dedicated to the education of Pennsylvania mineral and royalty owners.

We are planning an incredible program for the 2018 annual convention dedicated to getting deeper in to the information that mineral and royalty owners need to know.

We will have **three** concurrent sessions Friday afternoon so attendees can choose the topics most pertinent and interesting to them.

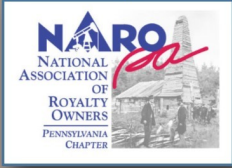

If you can't attend, be sure a family member is there. Owning mineral property in Pennsylvania is more than just another deed in the courthouse and check in the mail. It is personal involvement in domestic energy production like the world has never seen. It is exciting and important.

Pennsylvania was the nation's second-largest natural gas producer for the fourth consecutive year. Gross natural gas production, primarily from the Marcellus Shale, exceeded 5 trillion cubic feet in 2016. A mineral Owner's most valuable asset is knowledge!
